COMMERCIAL: a RETIREE TRAVEL & CULTURAL INFORMATION CENTER

585 Commercial Street,
Boston, MA

Traveling is a top retirement goal but often times it is unfulfilled because of deteriorating health or financial concerns. An experiential built environment can inform and inspire retirees to take a journey in which they can learn about and experience the physical, psychological, and social benefits associated with travel which will lead them to an enriched life of overall wellness.

The project was designed using sustainable solutions.

These images were rendered using AutoCAD, Sketchup, Podium, and Photoshop.
